Clue [21]: Eilish is not next to the person with straight hair. So Eilish cannot be next to the person who is going to Australia having straight hair.
The person going to Australia with straight hair is either Amy or Bob. And the person next to Bob is nobody, so the clue is for the person next to Amy. Therefore the person at position 'D' is not Eilish.
Then Elish is left only at position 'C'.
This also establishes that Amy is going to Australia and has straight hair.
Then Keeley is at position 'D', lives in village and is 52 yr. Clue [5] & Clue [11]
Then Bob is 46 yr, and therefore bald. Clue [12]
So Keeley is curly. Eilish is 81 yr, hence lives in a farm. Clue [19]
Bob's destination is France hence lives in a town. Clue [20]
Then Amy lives in a city.
